NOTES: This is a single wing profile, mayfly, cripple. This fly is featured in Kelly Gallup's book *Cripples & Spinners*, and is characterized as being his single most important contribution to our practice. While tying the fly, we will be focusing on dubbing, palmering hackle, creating a thread trap for the wing and creating an arc in the hook to represent the arc of the insect caught in the surface film.

**REMEMBER ~ it's perfectly OK to substitute materials for our classes.
USE WHAT YOU HAVE & LEARN THE TYING TECHNIQUES.**
